About

I am an experienced and student-centered elementary educator with a strong background in Elementary Education. Over the past decade, I've taught 2nd, 3rd, and 4th grade in diverse school settings while leading instructional initiatives that strengthen curriculum, assessment, and classroom engagement.

I'm passionate about creating meaningful, accessible learning experiences for all students, especially through technology integration, high-quality instructional materials, and evidence-based strategies.

I am currently completing my M.Ed. in Instructional Design & Educational Technology (graduating December 2025), where I'm expanding my skills in multimedia learning, UDL, assessment design, and digital content creation. My goal is to blend classroom experience with instructional design expertise to create engaging learning resources for both students and teachers.

Experience

4th Grade Teacher

Coatesville Area School District

August 2024 – Present

- Teach and support a diverse group of learners using differentiated, standards-aligned instruction.
- Integrate instructional technology including Canvas, iPads, SMART Boards, and other digital tools.
- Design learning materials that support multilingual students and students with IEPs.
- Contribute to grade-level planning, curriculum implementation, and district initiatives.

Elementary Teacher (2nd Grade, 3rd Grade Math)

Collegium Charter School

August 2014 – June 2024, 2nd Grade Teacher (2014–2021), 3rd Grade Math Teacher (2021–2024)

Leadership & Contributions:

- Served as Lead Teacher.
- PBIS building representative.
- Student Council advisor, planning school community events.

- Created and refined math assessments aligned with standards.
- Helped develop and implement standards-based grading.
- Built and updated curriculum maps for ELA and math.
- Served as a mentor teacher and cooperating teacher for student teachers.
- Delivered professional development sessions on educational technology, including training staff on using ViewBoard technology.

Classroom Instruction:

- Taught both primary (2nd grade) and upper elementary (3rd grade math) learners using data-driven instruction.
- Integrated technology tools to enhance engagement and support diverse learning needs.
- Created differentiated resources and enrichment materials to support academic growth.

Education

M.Ed., Instructional Design & Educational Technology

American College of Education (ACE)

Expected December 2025

B.S. Early Childhood & Elementary Education — Magna Cum Laude (GPA 3.6)

Kutztown University (KU)

Graduated: 2012

Skills and Endorsements

Teaching & Instruction

- Literacy instruction
- Elementary math instruction
- Differentiated instruction
- Data-driven decision making
- Classroom management
- PBIS

Instructional Design & Technology

- Curriculum design & alignment
- Storyboarding & scripting
- Assessment design
- UDL & accessibility
- Canvas LMS, Google Classroom
- Canva, Genially, Vyond, Powtoon
- iPad & ViewBoard integration
- Multimedia design (audio & video)

Professional Skills

- Leadership & mentoring
- Collaboration & communication
- Project organization
- Creativity & innovation
- Professional development facilitation
